

OntoGuard Refusal / Escalation Receipt - Public Sanitized

Current accepted synthetic controlled event

Trace ID	83b5bdd9-7b5f-40c1-9e34-75573e0aac54
Decision API	ESCALATE
Release authorized	False
Release status	WITHHELD_PENDING_REVIEW
Routed to	HUMAN_REVIEW
Gate mode	SHADOW_MODE
Refused operation	AUTONOMOUS_OUTPUT_RELEASE
Downstream commit	NOT_COMMITTED
No-bind	NO_PROTECTED_EFFECT_FORMED
Consequence Custody	NO_BIND_PROVEN

Why this matters

OntoGuard withheld autonomous release before the protected effect formed. The exact proposed movement is bound through the frozen governing basis and Decision API result to the execution-boundary/no-bind evidence and receipt/manifest chain.

Goal completion context

Goal 3 code-now: 15/15 PASS. R7 and continuity/authority/custody capabilities are implemented. Separately, the controlled Full Seam passed 22/22 at L4_ROUTE_ENFORCED. This receipt is current-event evidence and does not assert customer-production L5.

Public boundary

Synthetic/public-safe case. No customer data. No raw prompt, raw model output, raw embeddings, private ontology internals, or source code.
